SUMMARY — Enthusiastic Frontend Developer with a passion for crafting user-centric web experiences. Adept at building interactive and responsive websites using HTML, CSS, and JavaScript. Skilled in ReactJS, leveraging features like hooks and component-based architecture to bring projects to life. Eager to contribute to a collaborative team environment and continuously expand my knowledge base.

PROJECTS

TypeWave Pro

🔗 typewavepro.netlify.app

ReactJS, HTML, CSS, Javascript

Notable Features

- The application ensures that users can select topic-related content to practice typing tests according to their preferences.
- It enables users to strengthen both their content comprehension and typing skills.

Skill Enhancement through Project Engagement

- The integration of Gemini for content has enhanced my skills in working with APIs.

Personal Portfolio

🔗 gokul-b.netlify.app

ReactJS, HTML, CSS, JavaScript

Skill Enhancement through Project Engagement

- The portfolio helps me enhance my skills in ReactJS by applying concepts such as hooks (useState, useEffect), components, and dependency management through real-time experience.
- The portfolio also serves to showcase my knowledge, skills, and projects.
- The use of the EmailJS service allows emails to be sent directly from client-side JavaScript code without the need for Server-side technology.
